Product/Service Involved: Online Grocery Delivery

Complaint Description:

My grocery order #GRC-55210 arrived with 3 items missing (milk, eggs, and bread) even though the invoice shows I was charged for all items. This is the second time this has happened in the last month.

Issue Details:

Missing items in delivered order despite being billed for the full order.

Resolution Provided:

None provided yet. I contacted support via chat but was only told to wait 24 hours for a callback, which never came.

Escalation Information:

I would like a refund for the missing items and some assurance this will not happen again, otherwise I will stop using this service.

Supporting Information:

I have photos of the delivered bag and the original invoice showing the charged items.
